OUR 1936 INTRODUCTION

Hybridizing has been our hobby for the past 8 years. Among the many good things appearing during this time we selected a half dozen or so which have proved worthy of introduction. This year we offer our first one at a very modest price considering its quality.

WINTER MOON (Thole)

A large cream white of fine form with green blue shadows; haft flushed and reticulated green gold, orange chrome beard. Standards wide, domed and slightly frilled. Falls broad and flaring. A form similar to Depute Nomblot. Tall, 42-inch, well branched, floriferous and slightly fragrant. A beautifully poised blend, suggesting the tones of antique marble.....\$ 5.00

OUR FORMER INTRODUCTIONS

WILLIAM CAREY JONES (Brehm)

An outstanding iris hybridizer and recognized critic writes, unsolicited: "We like your yellow seedling very much. With us it was an ivory yellow of excellent shape and substance, a very attractive flower." Beautiful in mass, and combines well with other colors; vigorous grower; large flowers; height, 40 inches. Does not fade\$ 1.75

THOMAS R. BACON (Brehm)

A refined, well-rounded ivory yellow, similar to William Carey Jones, except for a scarcely perceptible violet gray shading and flush from the tip of the beard. Large flowers in four tiers; vigorous grower; height 40 inches. Does not fade.....\$ 1.75

GEORGE DAVIDSON (Brehm)

A cool toned permanent yellow lake self of perfect Bruno form, substance and texture; a yellow which carries well without brassiness. Refined and beautiful; low branched; height, 40 inches. Exceptionally vigorous grower. Does not fade....\$ 4.00

JOSEPH LE CONTE (Brehm)

Distinctive; indescribable without recourse to a technical palette; a fine flower of yellow carmine or zinc yellow (Winsor and Newton color chart), with a shadowing of violet gray. Height, 38 inches; vigorous grower. Does not fade.....\$ 2.00
